TEEPHAM MEDICAL SDN. BHD. (Co. No.: 199801018145 / 474274-T)

20 YEARS CELEBRATING 2 DECADES OF TRUST

VIBRASENSE + T™

Advanced Sensory Testing Simplified For You

MULTIFUNCTIONAL SENSORY TESTING PROBE

VIBRATION PERCEPTION TEST

WARM UP TO 50 °C

COLD UP TO 15 °C

DISPLAY ENABLED
Built-in display that shows realtime stimulus values and provides instant summary reports for quick insights.

RAPID TESTING
Complete comprehensive sensory testing in just 15 minutes, saving valuable time.

RECHARGEABLE
Battery-powered and rechargeable, offering the ability to test 30+ subjects on a single charge for extended use.

WIRELESS REPORTING
Enables wireless sensory testing with seamless Bluetooth data transfer to its mobile app for ultimate convenience.

PORTABLE AND HANDHELD
Light-weight (~450 grams), handheld design that fits easily in a doctor's coat pocket, ensuring mobility and convenience on the go.

TEEPHAM MEDICAL SDN. BHD. | Service You Can Trust

TEEPHAM MEDICAL SDN. BHD. (Co. No.: 199801018145 / 474274-T)

20 YEARS CELEBRATING 2 DECADES OF TRUST

Vibrasense + T is a portable and rechargeable device designed for comprehensive quantitative sensory testing (QST). Building on the capabilities of the original Vibrasense, it accurately quantifies vibration, warm, and cold perception thresholds. By assessing both large and small nerve fiber function, Vibrasense + T delivers a holistic view of neurological health. Detecting changes in sensory perception early is vital for preventing irreversible nerve damage. This advanced device allows healthcare professionals to proactively screen, diagnose, and manage neuropathy.

ACCURATE. EFFORTLESS. EFFICIENT.

Your Comprehensive Sensory Assessment Device Vibrasense + T provides rapid and comprehensive sensory assessments, quantifying vibration, warmth, and cold perception with a single, convenient probe. Data is easily transferred to the companion app for detailed reporting.

GO DIGITAL WITH YOUR NEUROPATHY SCREENING

Experience seamless wireless digital reporting with Vibrasense and its companion app, VIBRACONNECT. Effortlessly generate detailed reports directly from your smartphone, ensuring convenience and mobility.

- Measure VPTs at 6 points in each foot
- Companion Mobile App
- Click off a button - wireless digital reporting
- Color Gradient Report Facility
- Longitudinal graphs, long term patient monitoring

HOW IT WORKS?: SCREEN PATIENTS ON THE GO

Vibrasense + T is designed for convenience and efficiency, enabling healthcare providers to deliver high-quality care anywhere, anytime. Whether in a clinic, hospital, or remote location, Vibrasense + T empowers you to screen patients quickly and accurately, all while maintaining ease of use and portability. Here's how Vibrasense + T enhances your practice with its key features.

01

Portable

Vibrasense's ergonomic design ensures portability and ease of use, allowing clinicians to screen patients anywhere, anytime.

02

Battery Powered

Screen up to 70+ patients on a single charge, ensuring efficiency and reliability throughout the day.

03

Display Enabled

Experience quick and accurate screening in under 10 minutes, outperforming traditional Biothesiometers.

04

Report Generation

Easily store and quantify multiple patient data with a simple click, streamlining the reporting process.
